

BOOM IN GLOBE REALTY IS LAUNCHED

Deal in Broad Street Business Lots Involves More than \$100,000 and Prefaces Unprecedented Activity

LOTS ON CORNER OF BROAD AND OAK SOLD TO JONES AND NEWMAN

Dominion Hotel Company Buys F. L. Jones Property and Will Erect Four-Story Addition—Jones to Build a Handsome Business Block

A deal in Globe business property, involving with contemplated improvements, was closed yesterday, when Dan B. Williamson disposed of his holdings at the corner of Broad and Oak streets to F. L. Jones and Jack Newman for \$40,000 spot cash. Mr. Jones in turn disposed of his property to South Broad street, adjoining the Dominion hotel property, to the Dominion Hotel company, for \$20,000. Improvements aggregating \$50,000 will be made soon.

Of the Williamson property, Mr. Jones secured the corner lot, which has a frontage of 66 2/3 feet on Broad street and 110 feet on Oak street, for which he paid \$33,000. Mr. Newman bought the inside lot, with a frontage of 60 feet on Broad street for which he paid \$7,000. The deal was made through the real estate agency of Alex. Simpson & Co.

This is one of the most important transactions in real estate in the history of the city, and for the frontage disposed of, beyond doubt, involves more money than any previous deal. The transfer of the Williamson property at the price named evidences very forcefully the wonderful progress Globe has made in the past few years and the confidence that capital has in the future of the city. Two years ago Mr. Williamson bought this property for \$12,000. Last year at the height of the city's prosperity, he was offered on several occasions \$30,000 for the lots. Friday afternoon the lot acquired by Mr. Jones could have been purchased for \$30,000. Saturday it had advanced in value \$30,000, and there was a

GALLAGHER'S MIND A LITTLE BIT RUSTY

TWELFTH WEEK OF RUEF'S TRIAL CLOSES WITH SUPERVISOR ON THE STAND.

EXAMINATION AS TO MONEY RECEIVED FROM RUEF AND PAID TO BOARD.

SAN FRANCISCO, November 21.—The twelfth week of the trial of Abraham Ruef, charged with bribery, closed today with Ex-Supervisor James L. Gallagher still on the witness stand under cross examination. Counsel for Ruef devoted almost the entire session today to interrogating Gallagher as to the dissemination of various moneys he stated he received from Ruef and paid to supervisors, and time and place of transactions. Although Gallagher admitted that some of the details inquired into by the witness adhere to the main to the general story of the payment of money for various franchises, and that the amounts were given to him by Ruef. Court adjourned at noon until Monday morning.

Globe Parties Victimized by Band Mexican Horse Thieves

Robbed of five horses about two months ago, R. D. Sesson, a resident of Deming, N. M., loaded his family into a camper's wagon and started out with a view to overhauling the thief and recovering his property. Yesterday, after a long and tiresome trip overland through the Gila valley, Sesson drove into Globe. He had been successful in locating two of his animals at different points in the valley, where he learned that another had been sold to Globe parties and brought to this city. The missing animal was discovered hitched in front of the Trust building, and an investigation disclosed the fact that a Mexican living between Safford and

NINE LIVES LOST IN MONTANA MINE FIRE

THREE BODIES RECOVERED FROM MINES OF MONTANA COMPANY.

OTHERS ARE BELIEVED TO BE UNDER THOUSANDS OF TONS OF ROCK.

HELENA, Mont., November 21.—A special to the Record from Red Lodge, Mont., says nine persons lost their lives as a result of the fire in the local mines of the Northwestern Improvement company. Three bodies have been recovered, but others are believed irretrievably buried beneath thousands of tons of earth and burned to a crisp. All the victims with one exception were Finns.

PROMINENT PHYSICIAN SUICIDES

AUSTIN, Nev., November 21.—Dr. C. E. Burton, one of the most prominent physicians of this section, committed suicide today by placing a can of ether under his nose and then shooting a hole in his head with a revolver. No cause for Burton's act is known.

Nicholas Follows Body Through Streets

ST. PETERSBURG, November 21.—The body of Grand Duke Alexis, uncle of the emperor of Russia, who died recently in Paris, was interred today in the new mausoleum of the Romanoffs within the fortress of St. Peter and St. Paul. Emperor Nicholas followed the coffin on foot throughout the crowded and silent streets of the capital. His majesty walked thus from the railroad station, a distance of three miles. In spite of apprehension for the safety of the emperor, there was no untoward incident.

CRIMSON TRIUMPHS OVER BANNERS OF YALE

BATTLE OF GIANTS RESULTS IN VICTORY FOR HARVARD BY SCORE OF 4 TO 0.

RUSH PLAYS NET GODD RESULTS BUT GOAL LINE WAS NEVER CROSSED.

First Victory for the Crimson Colors in Seven Years—Carlisle Indians Are Beaten at Their Own Game—Results From All Over the Country.

NEW HAVEN, Conn., November 21.—The crimson tide of banners swept in triumph over the Yale field in the dying light this afternoon for the men of Harvard. After seven long years they had beaten Yale, 4 to 0. A goal from field, kicked by Victor H. Kennard of Brookline, Mass., fresh from the side lines, and standing on Yale's twenty-eight-yard line, with the crimson line planted on the fifteen-yard line, was the winning score, just as the first half was closing. The game was a battle of football giants. After all, granting to the Harvard men their full share of credit for victory, the sons of Eli can point as consolation to their goal line, which was not crossed by a foe of even such worthy metal. Man for man, the teams were evenly matched. Each team's defense was stronger than its offense and the best laid plans of strategy well might went for naught.

Harvard rushed during the entire game, 65 times, netting 241 yards, an average distance of 3.23 yards to a rush. Yale rushed 47 times for a distance of 95 yards or nearly a yard less per rush on the average. Harvard received the ball four times on downs, while Yale failed to hold the crimson for downs once, simply because the kick was resorted to when two rushes failed to give the needed two yards. This made exchanges of the ball frequent and lent spice to the playing. Rushing had its compensations, for it worked up the audience to a high pitch of expectancy every few minutes.

INDIANS OUTPLAYED.

MINNEAPOLIS, November 21.—Showing the best form of the season and the best exhibition of an "open game" seen on Throop field this year, Minnesota completely outplayed the Carlisle Indians at their own game today and won 11 to 6.

YESTERDAY'S SCORES.

Amherst—Amherst 4, Williams 0.
Chicago—Depauw 6, Illinois 0.
Iowa City—Kansas City 10, Iowa 5.
Champaign—Illinois 64; Northwestern 8.
St. Louis—Vanderbilt 28, Washington 0.
Topeka—State Agricultural 23, Washburn 4.
West Point 25, Villanova 0.
Minnesota 11, Carlisle 6.
Wisconsin 12, Chicago 18.
Cornell 18, Trinity 6.
Navy 15, Virginia Polytechnic 4.
Syracuse 28, Michigan 4.

FIELD MEET AT PHOENIX.

TEMPE, November 21.—To settle one and for all the mooted question of athletic supremacy between the Tempe Normal and the Phoenix high school for 1908, the two schools have arranged for a trick and field meet to take place at the Phoenix fair grounds next Thursday, beginning at 1:30 o'clock.

GLOBE MINES LEAD IN DEVELOPMENT OF COPPER

PRODUCTION OF THE RED METAL WILL BE MUCH LARGER NEXT YEAR.

Present Year Most Favorable in History of Globe District—Several Copper Mining Companies Have Opened Up Great Ore Bodies.

Favored by perfect weather, mining in Globe district continues to make very satisfactory progress, with a gradual expansion of operations. Evidence is multiplying of a rapidly growing interest in Globe mines at financial centers and among investors in many parts of the country; and at home confidence in the future of the camp is reasserting itself in a general improvement of business, a revival of building, rising real estate values and the loosening of purse strings, which have been rather tightly drawn for the last year.

This confidence is based upon concrete information regarding the development of our mines and the certainty of a larger copper production for the district, which promises to grow for many years. An eastern financial journal enumerating the new mines which give promise of becoming large producers, names Miami of Globe as the one property that has been evolved from a prospect during the past year that promises to become one of the great producing copper mines of the world. Miami has more than twelve million tons of 24.3 per cent sulphide ore in sight, and the tonnage is steadily growing.

Big Interests After Options.

The remarkable ore development on the property of the Miami Copper company has awakened a lively interest in the contiguous ground, which has resulted in a contest of big interests for the control of the most important groups of claims. Of these, perhaps the most valuable is the Inspiration property, which has 1,500,000 tons of sulphide ore developed, and the Eureka, Keystone and Live Oak, all of which have been good producers and believed to carry the same character of sulphides at depth as opened on the Miami property. The Keystone is under option to the General Development company, and we understand that options are likely to be secured on the other properties by strong interests other than the Miami people, which would be better for the district. With the extension of the railroad from Globe to Miami, work on which is expected to start very soon and be completed in four months, that section should experience a season of very active development. The Miami company is awaiting the construction of the railroad to its property before beginning the erection of the first 1000-ton unit of a 3000-ton concentrator.

The Warrior Copper company is also developing in its Montgomery mine an ore body which promises to be one of the most extensive and valuable yet opened in this district. This ore body has already been opened by a drift on the 250-foot level nearly 450 feet in length and a crosscut of sixty-five feet, the ore averaging 15 per cent or better.

Old Dominion.

It is gratifying to note the progress of Old Dominion, notwithstanding the past year was one of the worst the copper business ever experienced. There has been steady improvement underground, the ore reserves being largely

(Continued on Page Five)

Newspapers Will be Short of White Paper

MILWAUKEE, November 21.—The Evening Wisconsin in a special from Appleton, Wis., says:

"Unless favorable weather conditions prevail practically throughout the United States, between now and the first of next year, the country within six weeks will face a print paper famine, according to paper manufacturers of Wisconsin.

"The constantly depleting of water power in the streams throughout the paper making districts in both the east and the west are adding daily to the threatening aspect.

Mechanic is Hurlled to Terrible Death

SAVANNAH, November 21.—Turning sharply to avoid a collision with a large dog that was crossing the course, Jean Jubasse, driving a French-Spo car entered in the international light car race, to be run here next Wednesday as a preliminary to the grand prize contest on Thursday, hurled him mechanician to almost instant death today and is himself lying in a Savannah hospital tonight with an injured spine. The racing machine was crippled beyond hope of repair.

IN STATE LIES CLAY OF CELESTIAL RULERS

CEREMONIES OF CONDOLENCE BY DIPLOMATIC CORPS IMPRESSIVE IN EXTREME.

BODIES OF EMPEROR AND EMPRESS REPOSE IN SEPACRATES HALLS.

Officials Reported Dead or Eliminated Appear to Contradict Stories Relative to Their Taking Off—Regent Is Disappointment in Appearance.

PEKIN, November 21.—The ceremony at the imperial palace this morning, when members of the diplomatic corps presented the condolences of their respective governments on the deaths of the emperor and dowager empress, was the most impressive ever witnessed in Pekin. A notable feature was the presence of every member of the imperial clan, as well as every official who has been reported dead or eliminated from the conduct of affairs of state. This was an answer by the government to rumors of suicides and deaths which have been current in Pekin for the last week.

The bodies of their majesties reposed each in a separate hall. The catafalque of the emperor was on a dais in the Chien Ching hall and was draped in black satin, embroidered with dragons. A large image of a bird above the throne, emblematic of the glory and beauty which good government sheds over the world, was covered over with a white curtain, as were the numerous mirrors in the throne room, while satin screens, set at oblique angles to the catafalque, shut out the view from the foreign representatives of the numerous gatherings in the mourning palace of attendants and servants.

Prince Chun, regent, stood at a table beside the catafalque of the emperor. The dowager empress lay in state in her own private palace, called Huang Chi Tien, where she received the congratulations of the diplomats of November 4, on the occasion of her 74th birthday anniversary. This palace is in the east part of the Forbidden City, the section heretofore called the harem quarters.

The diplomats passed from the hall where lay the body of the emperor to the palace of the dowager and were preceded by Prince Chun, who covered the distance with unmistakable evidence of haste. The catafalque was flanked by white screens. Behind, on the floor, were grouped all the women of the imperial clan, attended by their servants, all plainly visible to the foreigners. The men of the imperial clan were behind the screens on the right side.

The appearance of Prince Chun was noted with the greatest interest. Praises of the regent have been sung during the last few days in fulsome terms and as a result cautious diplomats were prepared for something different than what these eulogies had led them to expect, particularly in the light of an edict issued yesterday accentuating his power. In appearance the prince was a disappointment. He bears a strong resemblance to the late Kuang Hsu. His face was worn and drawn and bore an expression of fright.

MISSIONARY RALLY.

LOUISVILLE, November 21.—Several high dignitaries of the Episcopal church in America will participate in the missionary rally to be held in Louisville tomorrow under the auspices of the Laymen's League.

POWERFUL ORGANIZATION OF RAILWAY UNIONS BORN IN DENVER

Amalgamation of Railway Guilds Seeks to Place Every Railroad Employee Under Wing of American Federation of Labor—Denver Convention

DENVER, November 21.—There was born in Denver yesterday a powerful employees' union to be known as the Railway Employees department of the American Federation of Labor, with ten affiliated orders as members. H. B. Perham was elected chairman and John Flannery secretary. The object is to bring about a closer union of all railroad employees and to seek to affiliate all railroad organizations with the federation.

The first convention will be held in Denver, and 500,000 employees will be represented by officers of their organizations, which are:

Order Railroad Telegraphers.
Brotherhood of Boilermakers and Iron Shipbuilders of America.
International Freight Handlers union.
International Association of Machinists.
International Association of Car Workers.

International Brotherhood of Blacksmiths.

Brotherhood of Railway Clerks.

Switchmen's Union of North America.

International Union of Maintenance of Railway Employees.

International Association of Steam Fitters.

CROWDS TO GOLD PASS.

EL PASO, November 21.—Many persons are leaving here for Gold Pass, N. M., a short distance east of Sylvanite, where gold discoveries have been reported. A townsite has been laid out and promises quickly to equal Sylvanite, which had a large population one month after it was located.

NEW SENSATIONS IN THE LAMPHERE TRIAL

WITNESSES TESTIFY TO SEEING MRS. GUNNESS BEFORE FATAL FIRE.

ALWAYS ACCOMPANIED BY MEN AND HAD FONDNESS FOR WEARING VEILS.

LAPORTE, Ind., November 21.—The sensations in the Lamphere trial today were stories told by Daniel M. Hulzen and his daughters, by Fred R. Rickman and by John Anderson, who saw a strange woman with Mrs. Gunness on the Saturday before the fire. Hulzen and his daughters declared they saw Mrs. Gunness on July 9, but they were unable to distinguish her features through a black veil. Hulzen, a neighbor of Mrs. Gunness and one of the men hired by the sheriff to dig in the ruins of the house for the bodies after the fire, declared that he knew Mrs. (Continued on Page Four)

William Will Consult His Ministers Before Speaking

BERLIN, November 21.—Emperor William made his first appearance in public today since his interview with Chancellor Von Buelow last Tuesday, when the prince urged upon his majesty the necessity of speaking, and acting only on the advice of his responsible ministers, and he gave a striking example of his readiness to observe the obligation then laid upon him.

The occasion was the centennial celebration of the city council. When the emperor arose to ascend the tribune, Prince Von Buelow stepped forward and impressively handed him a printed sheet and the emperor, ignoring his general custom of speaking extem-

poraneously, confined his remarks to what was on the paper. After a few formal remarks, his majesty made the following reference to recent occurrences:

"I cherish the firm confidence that the bond of loyalty and affection which from ancient times in our fatherland has so closely joined king and citizens, princes and people, always will remain unbroken.

"If, according to the words of the Prussian national hymn, 'The sun cannot always shine and dull days must occur,' then the rising clouds would never throw their shadow between me and my people."

PAPER TRUST SCORED.

WASHINGTON, November 21.—A severe arraignment of the so-called "paper trust" was the feature of today's tariff hearing before the house committee on ways and means, which was in session until nearly midnight. After hearing the arguments, mainly for protective tariff, the committee listened to the testimony of John Norris, representing the American Newspaper Publishers' association. Norris argued for free trade in pulp and print paper, giving many figures to show that the protection afforded paper manufacturers by the present tariff resulted in unreasonable prices.

SIX-DAY BICYCLE RACE WON BY SALT LAKE MAN

BOSTON, November 21.—The Lawson-Anderson team won the six-day bicycle race at the Park Square coliseum, which ended at 11 o'clock tonight. The finish was sensational, six teams in a field of ten falling during the final sprint. Five riders finished. When they crossed the line, Iver Lawson of Salt Lake City, was ahead; Walter L. Mitten, Davenport, Iowa, second; Carlo Vanoni, Italy, third; Eddie Root, Melrose, Mass., fourth; and Ed McLay, New York, fifth. All five made 1320 miles and 1 lap.

THE WEATHER TODAY.

WASHINGTON, November 21.—Forecast for Arizona: Fair Sunday and Monday.

GOMPERS ELECTED PRESIDENT OF A. F. OF L.

HAS HELD OFFICE SINCE ORGANIZATION OF FEDERATION EXCEPT ONCE.

TORONTO, CANADA, WILL HAVE INTERNATIONAL CONVENTION NEXT YEAR.

DENVER, November 21.—President, Samuel Gompers, Washington, D. C.; first vice president, James Duncan, Quincy, Mass.; second vice president, John Mitchell, Spring Valley, Ill.; third vice president, James O'Connell, Washington, D. C.; fourth vice president, Max Morris, Denver; fifth vice president, D. A. Hayes, Philadelphia; sixth vice president, Wm. D. Huber, Indianapolis; seventh vice president, Joseph F. Valentine, Cincinnati; eighth vice president, John R. Alpine, Boston.
